My Profile

Computer Science undergraduate and motivated Full Stack (MERN) Developer with hands-on experience in building, deploying, and maintaining scalable web applications. Strong foundation in React, Node.js, Express, and MongoDB, with emphasis on clean architecture, performance optimization, and responsive UI design. Skilled in WordPress development, theme customization, and creating responsive websites. Seeking for internship-level opportunities to contribute to real-world software systems.

Education

Bachelor of Science in Computer Science

2023 – 2027

COMSATS University Islamabad, Abbottabad Campus

CGPA: 3.83 / 4.0

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Artificial Intelligence, Web Technologies, Information Security

Projects

Weather Forecast Application

[Live](#) — [GitHub](#) — [Netlify](#)

React.js, Weather API, Tailwind CSS

- Designed and developed a real-time weather application delivering current conditions and 7-day forecasts
- Optimized API consumption and city-based search to improve response efficiency
- Implemented a fully responsive interface following modern UI/UX standards

File Converter Application

[Live](#) — [GitHub](#) — [Render](#) / [Netlify](#)

React, Node.js, Express, Multer, LibreOffice

- Engineered a full-stack document conversion system supporting DOCX ↔ PDF workflows
- Implemented secure file uploads and validation using Multer middleware
- Integrated LibreOffice for accurate document formatting

MyTodo MERN Application

[Live](#) — [GitHub](#) — [Render](#) / [Netlify](#)

React, Node.js, Express, MongoDB, Cloudinary

- Developed a task management application with image attachment support
- Implemented RESTful APIs and full CRUD functionality using MongoDB
- Integrated Cloudinary for scalable and secure media storage

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, MongoDB Atlas, SQL

WordPress: Theme customization, plugin integration, Elementor, website building

Tools & Platforms: Git, GitHub, Netlify, Render, Cloudinary, Multer

Certifications

Crash Course on Python — Coursera (Google)

2024

Introduction to Artificial Intelligence (AI) — Coursera (IBM)

2025

Git and GitHub Certificate — Coursera (Google)

2026
